

BLOOD PRESSURE SCREENING

It is important to get your blood pressure checked on a regular basis. High blood pressure can go undetected and is also known to be fatal.

This is your opportunity to get your blood pressure checked regularly and no appointment necessary.

Blood Pressure Screening Clinic

Disease prevention and management

Did you know:

- We can help you monitor and manage your blood pressure?
- Participants do not have to be a patient of the Napanee Area Community Health Centre to participate?
- BP Clinics are run by trained volunteers in the provision of healthcare?
- information can be shared with your primary care provider if deemed necessary?
- Napanee Area Community Health Centre has a clinic in Deseronto to do just that?

Blood Pressure clinics are held on the second and fourth Thursdays of each month from 1-3pm.

Have you or a family member already been diagnosed of any of the following risk factors?

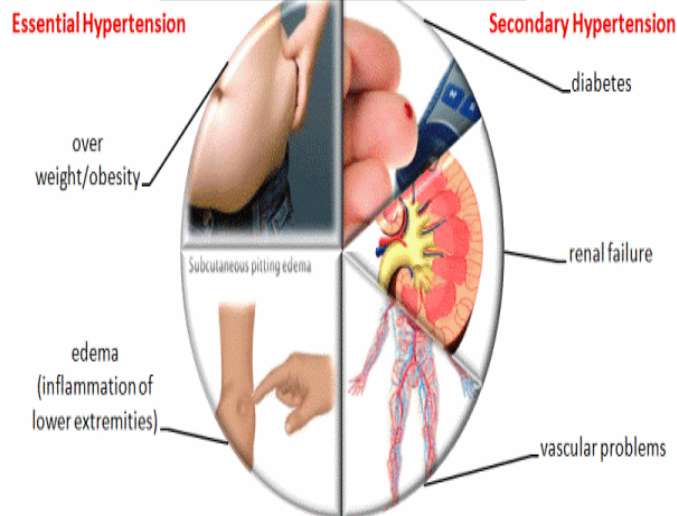

- High Blood Pressure
- Atrial Fibrillation
- Heart Attack
- High Cholesterol
- Diabetes
- Kidney Disease
- COPD

Do you have Indigenous Ancestry?
High blood pressure is a growing health problem among Canadians and it can go undetected with fatal consequences. The Indigenous population are at a high risk.
